

Riverside Winter Newsletter

WWW.RIVERSIDELIFESTYLEESTATES.CA

Fall work completed just in time for the snow!

After a very busy summer of possessions and landscaping, the Riverside team is excited to have the majority of the landscaping done as the snow begins to fly. Trees planted and sod laid in the fall, as it was the ideal time, will make for a wonderful spring environment. As we head into the cold winter months, our home owners will certainly enjoy their heated underground parking.

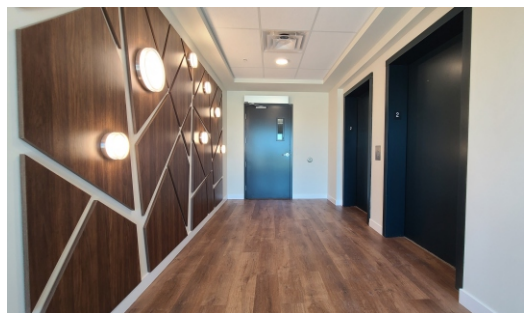

Winter is here and the great views remain

The leaves are gone and the snow looks to be staying. As one of our owners put it, "it's still like waking up in a resort every morning as the views simply can't be beat."

Update on Sales

With 37 of our 40 units sold, our management team has allowed for 2 of the remaining 3 units to be finished by the buyer for a limited time. The ones still available to add your personal touch on are the 3rd floor Horizon and Bedrock plans. A purchaser would still be able to select their flooring, cabinets, paint colour, fixtures and tile, along with add their own custom features. The Horizon plan is a west view of the Wheat City Golf course and boasts over 2000 sq ft of living space with 2 large bedrooms and a spacious den/guest room. The Bedrock plan is 1600 sf ft and located on the south/east corner, offering loads of natural light and a river view.

The amenities and location continue to impress

Our vision for the rooftop patio in the first building was always bold. The renderings over the years simply didn't do it justice. Now that everything is completed, the roof top patio will be a place for home owners to enjoy for years to come! It's big enough to host very large gatherings, or several groups at a time ensuring everyone has their own space.
